DETAILED ACTION

Acknowledged Receipt

Receipt is acknowledged of the changes to the claims and the remarks related to the previous rejection, all of which were filed on 01/22/2007. The above have been considered and entered.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Fallon on 6/5/07. The application has been amended as follows:

- Claim 25 (Canceled).

Allowable Subject Matter

Claims 1-24 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1, 14, 20, and 21, the prosecution history, especially at the previous Remarks by Applicant (01/22/2007, pages 11-16) clearly indicates the reasons for allowance.

Specifically, regarding independent claims 1 and 14 the prior art fails to teach or suggest a phased locked micro-discharge array having a plurality of micro-discharge cavities sized to produce plasma within said cavities and being arranged such that at least some of the cavities are within the coherence length of at least one emission line in combination with the remaining limitations of the claims.

Regarding independent claim 20 the prior art fails to teach or suggest a phased locked micro-discharge array having a plurality of micro-discharge cavities sized to produce plasma within said cavities and being arranged in a Fresnel pattern in combination with the remaining limitations of the claim.

Regarding independent claim 21 the prior art fails to teach or suggest a phased locked micro-discharge array having a plurality of micro-discharge cavities sized to produce plasma within said cavities and being arranged to produce a phase locked response when excited in combination with the remaining limitations of the claim.

The remaining claims are allowable due to their dependency.

Any comments considered necessary by the Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of reasons for Allowance."

Conclusion

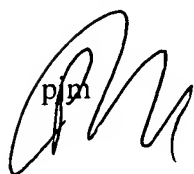

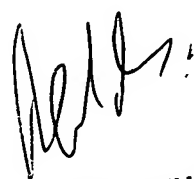

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure to show the state of the art.
